

## ADMISSION REQUIREMENTS

The access requirements to the University in order to obtain a degree are the following: holding a Bachillerato Certificate (Spanish Baccalaureate) and passing the Prueba de Evaluación de Bachillerato para el Acceso a la Universidad (Spanish University Entrance Examination), or holding the Ciclo Formativo de Grado Superior Certificate (Spanish Advanced Vocational Training Certificate); or holding the European Baccalaureate or International Baccalaureate Certificate; or having completed secondary education in EU countries or countries that have signed the corresponding specific bilateral agreements with Spain; or having foreign studies validated by the Spanish Ministry as equivalent to the Spanish Bachillerato; or having passed the University Entrance Tests or Procedures for people over 25, 40 or 45 years old.

Candidates fulfilling the above requirements wishing to raise their entrance marks (not applicable for candidates wishing to enter to the University by holding a completed University degree, those passing of the University Tests for people over 25, 40 or 45 years old, or holding a validated Baccalaureate Studies) can optionally pass during the University Entrance Examination an assessment test in up to 4 extra subjects. It is advisable to consult the weighting parameters of each subject for each Degree and the requirements and deadlines to participate in the different pre-registration procedure phases: Foreign Students Phase (March), Ordinary Phase (June) and Extraordinary Phase (September).

## DESCRIPTION

Double degree with excellent professional opportunities in very diverse activities, quality programs that are offered in two centers of long experience of the University of Seville in teaching in Administration and Business Management and Law. Both Faculties, very close in their location have external internships incorporated into their respective programs. Students, moreover have the opportunity to participate in the ERASMUS scholarship program with students from countries of the European Union. Both faculties are endorsed by their teaching quality and research and assure a multidisciplinary education creating professionals with a legal education and in economics.

The basic objectives are: to introduce students to the assimilation and application of legal concepts and institutions of law, facilitate the understanding of procedures for the enactment of laws, provide knowledge about the structure of representative bodies and courts; to create professionals capable of analyzing, evaluating and predicting general economic problems that arise in the public or private spheres.
